(b)(3) NatSecAct
(b)(5)
(b)(6)

DoJ attorneys then asked whether edema was a problem. OMS personnel stated that it was not a problem, since we monitor the detainee (b)(5)

and will adjust shackles or method of applying the technique as necessary to prevent edema, as well as any chaffing or over-tightness from the shackles. (b)(5)

Water Dousing:

(b)(3) CIAAct

(b)(5)

(b)(6)

The water is at normal temperature; CIA makes no effort to "cool" the water before applying it.

Water Board:

(b)(3) CIAAct

(b)(5)

(b)(6)

DoJ asked what the current limitations/guidance were on use of the water board. [redacted] answered that each application could not last more than 40 seconds (and usually only lasted about 20 seconds)
