Beloved early childhood educator, Ms. Rachel is currently being smeared and targeted by a right-wing group that is urging Trump's Department of Justice to investigate her over the baseless claim that she has received funding from Hamas.

Ms. Rachel is being targeted because she uses her voice and platform to speak out about the suffering of Palestinian children, and to affirm the right of every child — Palestinian and Israeli alike — to grow up safely, free from hunger, violence, war, terror, and trauma.

Care and compassion for others, and the belief that every human is made *B'tselem Elohim* – in the image of G-d – are core Jewish values. It is shameful to see someone living out this value be attacked for doing so in the name of defending Jews.

The group targeting Ms. Rachel, StopAntisemitism.org, solely exists to punish and harass private and public individuals who criticize the actions of the State of Israel or simply express sympathy for and solidarity with Palestinians. Instead of combating antisemitism, the group cheapens the word through its use of false and bad-faith accusations, making it harder to take on the very real and serious problem of antisemitism.

Right now, we are watching an alarming increase in attacks on educators, artists, and activists from the federal government. As Jews, we must speak out against this effort, especially when it is being carried out in our name. **Please add your name to the**

petition below to let Ms. Rachel know that we appreciate her voice and have her back.
