Hello,

The government hosts a vast amount of information, with records spread across many different agencies, and even across different offices within agencies.

To help you figure out which federal agency might have the information you seek, we've developed this tool. If you're looking for non-federal records, such as from your local police department, we suggest you contact the appropriate state or local authorities.

This new tool represents the initial phase of our multiphase project, with enhancements planned for future phases to best serve you.

We recommend giving yourself at least 5 minutes to explore this tool.
